TRIAL BEACH wheelchair

- Wheelchair specially designed to be used **at the beach** (on the sand or inside the sea or the ocean) and in **pools**.
- Made of polymers and aluminum, with **stainless steel screws**.
- Fabric seat and backrest that evacuate instantly the water.
- Highly resistant and flexible.
- It can be converted into a regular wheelchair when summer season ends.
- It absorbs floor irregularities.
- **Foldable**, even when the user is seated on it, allowing them to pass through narrow paths.
- Height adjustable and removable footrests with no need of tools.
- Removable armrests (no tools needed).
- Three sizes available (38, 41, 44).
- Weight: 15,5 kg.
- Resistance: 125 kg.
