

Patient Lifts

Sunlift

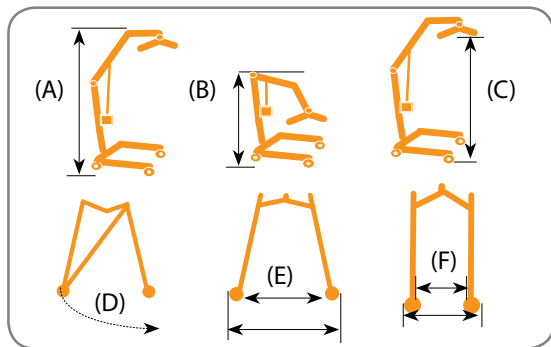

Sunlift

The SUNLIFT range consists of 4 models: MICRO, MINI, MIDI and MAJOR. All models feature exceptional rigidity thanks to the advanced design of all of the moving connections, eliminating play and offering a rigid feel with the hoist fully loaded. Actuators incorporate a double security button, light indicator of the battery charge level and an acoustic warning before total discharge happens. The battery capacity (2.9 Amph) provides a range of use at 50% higher than usual, allowing up to 60 double uses (up and down).

Sunlift Range

Measurements

SUNLIFT Micro

SUNLIFT Mini

Safe working load	130 kg	130 kg
Max total length (with wheels facing outwards)	1.010 mm	1.130 mm
Min total length (with wheels facing inwards)	970 mm	1.065 mm
Max width with legs closed	545 mm	545 mm
Max height (without load) (A)	1.725 mm	1.870 mm
Max height (without load) (B)	1.130 mm	1.280 mm
Max spreader bar height (without load) (C)	1.483 mm	1.628 mm
Min spreader bar height (without load)	460 mm	513 mm
Turning radius with legs open (D)	1.130 mm	1.240 mm
Legs open: (E) Max width (external) Max width (internal)	870 mm 740 mm	940 mm 810 mm
Legs closed: (F) Max width (external) Max width (internal)	545 mm 465 mm	540 mm 470 mm
Total leg height	100 mm	100 mm
Ground clearance	20 mm	20 mm
Castor wheels	75 mm	75 mm
Rear wheels	100 mm	100 mm
Mast, boom and electric components assembly weight	16,6 kg	17,54 kg
Base assembly weight	13,34 kg	13,6 kg
Batteries weight	2,76 kg	2,76 kg

Technical Features

(common for the 4 models)

Batteries: 2 x 12v de gel

Batteries capacity: 2,9 Amph

Charger input: 230 v / 50 Hz 0.12 A

Charger output: 28 v 0.5 Amph
